

## **Message from the Editors**

IAJIT is an international, specialized, refereed, and indexed journal that is published quarterly. Starting January 2005, the journal converted from biannually to quarterly, due to healthy increase in the number of paper submissions and the long queue for accepted papers waiting for publication, that started to become longer and longer. We believe that the journal attracted so many researchers from all over the world. Volume one included papers to authors from 12 different countries. We would like to invite all of you to contribute with your research papers. Your comments and suggestions to enhance this journal of yours are highly appreciated and welcomed.

Through a tremendous effort by our staff, reviewers, and editorial board, IAJIT is doing great and competing with many other journals who are in the field for long time. Our submission to publication time is less than twelve weeks on the average. IAJIT is currently indexed by Ulrich's Periodical Directory and DBLP. Our last issue included IAJIT 2003-2004 index. The index covered all papers that appeared in IAJIT during 2003-2004. The author's index contains the primary entry for each paper listed under the first author's name. The subject's index contains entries describing the paper under all appropriate subject headings based on the keywords specified by the authors. Our last issue also included IAJIT 2004 reviewers list which includes the names of all reviewers through May 1st, 2004. All other reviewers who submitted after this date will be included in our 2005 list which will be published in the last issue of this year; vol. 2, no. 4, October, 2005. Our reviewers spent a great deal of time and effort to review and select the highest quality papers for publication. Last year, we awarded IAJIT certificate of recognition to 14 of our most active reviewers.

Putting together an international journal requires the cooperation of many key individuals. We are sincerely grateful to all of the authors who submitted papers in a variety of areas in the field of information technology. We would also like to express our gratitude to the referees for their expeditious and thoughtful reviews, and to the local editorial board for their additional reviewing and evaluation. In addition, we would like to thank IAJIT editorial board for their general guidance and cooperation. Many thanks go to all individuals at IAJIT Secretariat for all the hard work and timeless hours they spent to prepare for the journal. All of these individuals have made significant contributions to the success of this journal as an outstanding forum for the exchange of knowledge in computing and information technology. Finally, IAJIT is pleased and grateful to acknowledge the sponsorship provided by Zarqa Private University, Jordan.

Editors,

Emad Abuelrub, Zarqa Private University
