20 newsgroups

using wordnet for text categorization, Elberrichi Z., +, *IAJIT January 2008 16-24*.

Abstractions

generating exact approximations to model check concurrent systems, Bourahla M., *IAJIT October 2008 393-401*.

Acceptance

simplified neural model for the software development team optimization, S. nair M., +, *IAJIT April 2008 148-153*.

ACK

a novel mechanism to improve performance of TCP protocol over asymmetric networks, Al-khatib W., +, *IAJIT January 2008 66-74*.

ACO (ant colony optimization)

simulation study of a heuristic near-maximum ant-based dynamic routing, Chin T., *IAJIT July 2008 230-233*.

Ad hoc network

a source tree reliable multicast protocol for ad-hoc networks, Al Ahdal T., +, *IAJIT July 2008 273-280*.

NAMP: neighbor aware multicast routing protocol for mobile ad hoc networks, Pathan A., +, *IAJIT January 2008 102-107*.

Adaptive gateway discovery

internet connectivity for mobile ad hoc networks using hybrid adaptive mobile agent protocol, Ayyadurai V., +, *IAJIT January 2008 25-33*.

Agent technology

agent based bioinformatics integration using RETSINA, Shunmuganathan K., +, *IAJIT July 2008 258-264*.

AODV ALMA

internet connectivity for mobile ad hoc networks using hybrid adaptive mobile agent protocol, Ayyadurai V., +, *IAJIT January 2008 25-33*.

Applications and expert systems

towards ontology extraction from data-intensive web sites: an HTML forms-based reverse engineering approach, Benslimane S., +, *IAJIT January 2008 34-44*.

Arabic character segmentation

off-line Arabic handwritten word segmentation using rotational invariant segments features, Abdulla S., +, *IAJIT April 2008 200-208*.

Arabic words database

off-line Arabic handwritten word segmentation using rotational invariant segments features, Abdulla S., +, *IAJIT April 2008 200-208*.

Asymmetric networks

a novel mechanism to improve performance of TCP protocol over asymmetric networks, Al-Khatib W., +, *IAJIT January 2008 66-74*.

Asynchronous transfer mode

a dynamic traffic shaping technique for a scalable QOS in ATM networks, Ogwu F., +, *IAJIT October 2008 349-357*.

Bandwidth allocation

a novel mechanism to improve performance of TCP protocol over asymmetric networks, Al-Khatib W., +, *IAJIT January 2008 66-74*.

Bluetooth

a priority gated round robin polling scheme for bluetooth piconets, Ibrahim A., +, *IAJIT April 2008 176-182*.

Cluster validity index

optimal fuzzy clustering in overlapping clusters, Ammor O., +, *IAJIT October 2008 402-408*.

Clustering

incremental transitivity applied to cluster retrieval, Hasan Y., +, *IAJIT July 2008 311-319*.

comparisons between data clustering algorithms, Abu Abbas O., *IAJIT July 2008 320-325*.

Capability maturity model integration

a knowledge-based advisory system for software quality assurance, Eldrandaly K., *IAJIT July 2008 304-310*.

Coding theory

multi-segment steganography technique, Al Naowk F., +, *IAJIT July 2008 253-257*.

Color histogram

an efficient region-based approach for object recognition and retrieval based on mathematical morphology and correlation coefficient, Alnihoud J., *IAJIT April 2008 154-161*.

Complete sharing/ gradual release

a dynamic traffic shaping technique for a scalable QOS in ATM networks, Ogwu F., +, *IAJIT October 2008 349-357*.

Component object mode

a knowledge-based advisory system for software quality assurance, Eldrandaly K., *IAJIT July 2008 304-310*.

Composition

modularization of crosscutting concerns in requirements engineering, Amirat A., *IAJIT April 2008 120-125*.

Concept query

flexible database querying based on ordered lattice theory extension, Sassi M., +, *IAJIT October 2008 426-434*.

Concurrent systems

generating exact approximations to model check concurrent systems, Bourahla M., *IAJIT October 2008 393-401*.

Constant bit rate

a dynamic traffic shaping technique for a scalable QOS in ATM networks, Ogwu F., +, *IAJIT October 2008 349-357*.

Constraints violation

enforcing user-defined constraints during the run-time in OODB, Zaqabeh B., +, *IAJIT October 2008 341-348*.

Correlation coefficient

an efficient region-based approach for object recognition and retrieval based on mathematical morphology and correlation coefficient, Alnihoud J., *IAJIT April 2008 154-161*.

Cosine distance

using wordnet for text categorization, Elberrichi Z., +, *IAJIT January 2008 16-24*.

Course management system

using recommendation systems in course management systems to recommend learning objects, Itmazi J., +, *IAJIT July 2008 234-240*.

Crossover

a heterogeneous framework for the global parallelisation of genetic algorithms, Hamdan M., *IAJIT April 2008 192-199*.

Cursive writing

off-line Arabic handwritten word segmentation using rotational invariant segments features, Abdulla S., +, *IAJIT April 2008 200-208*.

Data mining

performance evaluation of gene expression programming for hydraulic data mining, Eldrandaly K., +, *IAJIT April 2008 126-131*.

Data-intensive web

towards ontology extraction from data-intensive web sites: an HTML forms-based reverse engineering approach, Benslimane S., +, *IAJIT January 2008 34-44*.

Data organization

modelling concurrent mobile transactions execution in broadcasting environments, Al-Qerem A., +, *IAJIT October 2008 375-380*.

Decision based feature extraction

a customized particle swarm optimization for classification of multispectral imagery based on feature fusion, Krishnan V., +, *IAJIT October 2008 327-333*.

Decomposition

modularization of crosscutting concerns in requirements engineering, Amirat A., *IAJIT April 2008 120-125*.

Density slicing

an efficient region-based approach for object recognition and retrieval based on mathematical morphology and correlation

coefficient, Alnihoud J., *IAJIT April 2008 154-161*.

Depth-pass

shadow casting with stencil buffer for real-time rendering, Weng L., +, *IAJIT October 2008 358-366*.

Distillation columns

diagnosis of distillation column problems using new generation gamma-ray scanning gauge, Laraki K., +, *IAJIT January 2008 75-79*.

Distributed transaction processing

incompatibility dimensions and integration of atomic commit protocols, Al-Houmailly Y., *IAJIT October 2008 381-392*.

Documents diffusion

vectorial information structuring for documents filtering and diffusion, Nouali O., +, *IAJIT January 2008 1-6*.

Dominant pruning

NAMP: neighbor aware multicast routing protocol for mobile ad hoc networks, Pathan A., +, *IAJIT January 2008 102-107*.

Dynamic routing

simulation study of a heuristic near-maximum ant-based dynamic routing, Chin T., *IAJIT July 2008 230-233*.

Early aspects

modularization of crosscutting concerns in requirements engineering, Amirat A., *IAJIT April 2008 120-125*.

E-development

strategic planning for e-development in developing countries, Zaied A., *IAJIT April 2008 109-114*.

E-learning platform

using recommendation systems in course management systems to recommend learning objects, Itmazi J., +, *IAJIT July 2008 234-240*.

Electronic services and electronic commerce

incompatibility dimensions and integration of atomic commit protocols, Al-houmailly Y., *IAJIT October 2008 381-392*.

Entropy coding

implementation of a novel efficient multiwavelet based video coding algorithm, Radhakrishnan S., +, *IAJIT January 2008 52-60*.

Epilepsy analysis

analysis of epileptic events using wavelet packets, Sinno N., +, *IAJIT October 2008 421-425*.

Equivalence class

incremental transitivity applied to cluster retrieval, Hasan Y., +, *IAJIT July 2008 311-319*.

ESPSZBC

medical image compression using a novel embedded set partitioning significant and zero block coding, Palanisamy G., *IAJIT April 2008 132-139*.

Evolutionary

scatter search and graph heuristics for the examination timetabling problem, Hadjidj D., +, *IAJIT October 2008 334-340*.

Exam scheduling

a new exam scheduling algorithm using graph coloring, Malkawi M., +, *IAJIT January 2008 80-86*.

Examination timetabling

scatter search and graph heuristics for the examination timetabling problem, Hadjidj D., +, *IAJIT October 2008 334-340*.

Expectation maximization clustering algorithm

comparisons between data clustering algorithms, Abu abbas O., *IAJIT July 2008 320-325*.

Expert system

diagnosis of distillation column problems using new generation gamma-ray scanning gauge, Laraki K., +, *IAJIT January 2008 75-79*.

a knowledge-based advisory system for software quality assurance, Eldrandaly K., *IAJIT July 2008 304-310*.

Fault-tolerance

from e-manufacturing to m-manufacturing, Bouchoul F., +, *IAJIT April 2008 140-147*.

Feature extraction

off-line Arabic handwritten word segmentation using rotational invariant segments features, Abdulla S., +, *IAJIT April 2008 200-208*.

Filter

effect of filter size on fusion function in information retrieval, Gopalan N., +, *IAJIT April 2008 170-175*.

Focused crawler

self ranking and evaluation approach for focused crawler based on multi-agent system, Ali H., *IAJIT April 2008 183-191*.

Formal concept analysis

flexible database querying based on ordered lattice theory extension, Sassi M., +, *IAJIT October 2008 426-434*.

Flexible database querying

flexible database querying based on ordered lattice theory extension, Sassi M., +, *IAJIT October 2008 426-434*.

Forward server

a source tree reliable multicast protocol for ad-hoc networks, Al Ahdal T., +, *IAJIT July 2008 273-280*.

Frequency hopping spread spectrum

performance analyses of fast frequency hopping spread spectrum and jamming systems, Yahya A., +, *IAJIT April 2008 115-119*.

Fusion

effect of filter size on fusion function in information retrieval, Gopalan N., +, *IAJIT April 2008 170-175*.

Fuzzy cluster analysis

flexible database querying based on ordered lattice theory extension, Sassi M., +, *IAJIT October 2008 426-434*.

G/G/1

design and implementation of G/G/1 queuing model algorithm for its applicability in internet gateway server, Singh L., +, *IAJIT October 2008 367-374*.

Gamma-ray scanning

diagnosis of distillation column problems using new generation gamma-ray scanning gauge, Laraki K., +, *IAJIT January 2008 75-79*.

G-best

a customized particle swarm optimization for classification of multispectral imagery based on feature fusion, Krishnan V., +, *IAJIT October 2008 327-333*.

Gene expression programming

performance evaluation of gene expression programming for hydraulic data mining, Eldrandaly K., +, *IAJIT April 2008 126-131*.

Genetic algorithm

neural networks and support vector machines classifiers for writer identification using Arabic script, Gazzah S., +, *IAJIT January 2008 92-101*.

applying genetic algorithms for searching key - space of polyalphabetic substitution ciphers, Toemeh R., *IAJIT January 2008 87-91*.

a heterogeneous framework for the global parallelisation of genetic algorithms, Hamdan M., *IAJIT April 2008 192-199*.

Global optima

a customized particle swarm optimization for classification of multispectral imagery based on feature fusion, Krishnan V., +, *IAJIT October 2008 327-333*.

Graph algorithms

a new exam scheduling algorithm using graph coloring, Malkawi M., +, *IAJIT January 2008 80-86*.

Graph coloring

a new exam scheduling algorithm using graph coloring, Malkawi M., +, *IAJIT January 2008 80-86*.

Graph Heuristics

scatter search and graph heuristics for the examination timetabling problem, Hadjidj D., +, *IAJIT October 2008 334-340*.

Handoff and quality of service

mobility prediction based resource reservation for handoff in multimedia wireless cellular networks, Al-sanabani M., +, *IAJIT April 2008 162-169*.

Heart rate control

microcontroller based heart rate monitor, Fezari M., +, *IAJIT October 2008 409-413.*

Hierarchical blackboard architecture

toward a multi-temporal approach for satellite image interpretation, Karim S., +, *IAJIT July 2008 281-287.*

Hierarchical clustering algorithm

comparisons between data clustering algorithms, Abu Abbas O., *IAJIT July 2008 320-325.*

Hybrid MANET

internet connectivity for mobile ad hoc networks using hybrid adaptive mobile agent protocol, Ayyadurai V., +, *IAJIT January 2008 25-33.*

Hybrid SCM SAC-OCDMA

comparative performance of hybrid SCM SAC-OCDMA system using complementary and AND subtraction detection techniques, Sahbudin R., +, *IAJIT January 2008 61-65.*

Incremental transitivity

incremental transitivity applied to cluster retrieval, Hasan Y., +, *IAJIT July 2008 311-319.*

Information filtering

vectorial information structuring for documents filtering and diffusion, Nouali O., +, *IAJIT January 2008 1-6.*

Information retrieval

effect of filter size on fusion function in information retrieval, Gopalan N., +, *IAJIT April 2008 170-175.*

Information retrieval

incremental transitivity applied to cluster retrieval, Hasan Y., +, *IAJIT July 2008 311-319.*

Information search and retrieval

towards ontology extraction from data-intensive web sites: an HTML forms-based reverse engineering approach, Benslimane S., +, *IAJIT January 2008 34-44.*

In-line holography

modelling of long wavelength detection of objects using elman network modified covariance combination, Badri L., *IAJIT July 2008 265-272.*

Integrated database systems

incompatibility dimensions and integration of atomic commit protocols, Al-Houmailly Y., *IAJIT October 2008 381-392.*

Integrity constraints

enforcing user-defined constraints during the run-time in OODB, Zaqaibeh B., +, *IAJIT October 2008 341-348.*

Interference

performance analyses of fast frequency hopping spread spectrum and jamming systems, Yahya A., +, *IAJIT April 2008 115-119.*

Internet gateway server

design and implementation of G/G/1 queuing model algorithm for its applicability in internet gateway server, Singh D., +, *IAJIT October 2008 367-374.*

Internet in Education

integrating internet into traditional education: a practical study of university students' usage and attitudes, Mohammad J., +, *IAJIT July 2008 241-252.*

Internet transactions

incompatibility dimensions and integration of atomic commit protocols, Al-Houmailly Y., *IAJIT October 2008 381-392.*

Interpretation

toward a multi-temporal approach for satellite image interpretation, Karim S., +, *IAJIT July 2008 281-287.*

Intuitionistic fuzzy sets (IFS)

trust based prioritization of quality attributes, Bedi P., +, *IAJIT July 2008 223-229.*

ISO/IEC 90003

a knowledge-based advisory system for software quality assurance, Eldrandaly K., *IAJIT July 2008 304-310.*

K-means algorithm

comparisons between data clustering algorithms, Abu Abbas O., *IAJIT July 2008 320-325.*

Label switched path

IP over WDM network control: network addressing and restoration, Kibria R., +, *IAJIT October 2008 414-420.*

Learning management systems

using recommendation systems in course management systems to recommend learning objects, Itmazi J., +, *IAJIT July 2008 234-240.*

Linear antenna arrays

design of linear antenna arrays for side lobe reduction using the tabu search method, Merad L., +, *IAJIT July 2008 219-222.*

Link state advertisement

IP over WDM network control: network addressing and restoration, Kibria R., +, *IAJIT October 2008 414-420.*

Lossless compression

medical image compression using a novel embedded set partitioning significant and zero block coding, Palanisamy G., *IAJIT April 2008 132-139.*

M/M/1

design and implementation of G/G/1 queuing model algorithm for its applicability in internet gateway server, Singh D., +, *IAJIT October 2008 367-374.*

Maximum entropy principle

optimal fuzzy clustering in overlapping clusters, Ammor O., +, *IAJIT October 2008 402-408.*

Mediator

agent based bioinformatics integration using RETSINA, Shunmuganathan K., +, *IAJIT July 2008 258-264.*

Meta-heuristic

scatter search and graph heuristics for the examination timetabling problem, Hadjidj D., +, *IAJIT October 2008 334-340.*

Microcontroller

microcontroller based heart rate monitor, Fezari M., +, *IAJIT October 2008 409-413.*

Microsystems

microcontroller based heart rate monitor, Fezari M., +, *IAJIT October 2008 409-413.*

M-maintenance

from e-manufacturing to m-manufacturing, Bouchoul F., +, *IAJIT April 2008 140-147.*

M-manufacturing

from e-manufacturing to m-manufacturing, Bouchoul F., +, *IAJIT April 2008 140-147.*

Mobile agents

internet connectivity for mobile ad hoc networks using hybrid adaptive mobile agent protocol, Ayyadurai V., +, *IAJIT January 2008 25-33.*

Mobile agents

from e-manufacturing to m-manufacturing, Bouchoul F., +, *IAJIT April 2008 140-147.*

self ranking and evaluation approach for focused crawler based on multi-agent system, Ali H., *IAJIT April 2008 183-191.*

Mobile enterprise

from e-manufacturing to m-manufacturing, Bouchoul F., +, *IAJIT April 2008 140-147.*

Mobile transactions

modelling concurrent mobile transactions execution in broadcasting environments, Al-Qerem A., +, *IAJIT October 2008 375-380.*

Mobility prediction

mobility prediction based resource reservation for handoff in multimedia wireless cellular networks, Al-sanabani M., +, *IAJIT April 2008 162-169.*

Model checking

generating exact approximations to model check concurrent systems, Bourahla M., *IAJIT October 2008 393-401.*

Modified covariance method

modelling of long wavelength detection of objects using elman network modified covariance combination, Badri L., *IAJIT July 2008 265-272.*

Methodologies

modularization of crosscutting concerns in requirements engineering, Amirat A., *IAJIT April 2008 120-125.*

Morphological operations

an efficient region-based approach for object recognition and retrieval based on mathematical morphology and correlation coefficient, Alnihoud J., *IAJIT April 2008 154-161*.

Multi-agent system

toward a multi-temporal approach for satellite image interpretation, Karim S., +, *IAJIT July 2008 281-287*.

trust based prioritization of quality attributes, Bedi P., +, *IAJIT July 2008 223-229*.

self ranking and evaluation approach for focused crawler based on multi-agent system, Ali H., *IAJIT April 2008 183-191*.

Multicasting

NAMP: neighbor aware multicast routing protocol for mobile ad hoc networks, Pathan A., +, *IAJIT January 2008 102-107*.

Multilayer perceptron

neural networks and support vector machines classifiers for writer identification using Arabic script, Gazzah S., +, *IAJIT January 2008 92-101*.

Multiple linear regression

performance evaluation of gene expression programming for hydraulic data mining, Eldrandaly K., +, *IAJIT April 2008 126-131*.

Multispectral image

a customized particle swarm optimization for classification of multispectral imagery based on feature fusion, Krishnan V., +, *IAJIT October 2008 327-333*.

Multi-temporal remotely sensed images

toward a multi-temporal approach for satellite image interpretation, Karim S., +, *IAJIT July 2008 281-287*.

Multi access interference

comparative performance of hybrid SCM SAC-OCDMA system using complementary and AND subtraction detection techniques, Sahbudin R., +, *IAJIT January 2008 61-65*.

Multivariate chi-square

using wordnet for text categorization, Elberichi Z., +, *IAJIT January 2008 16-24*.

Multiwavelet

novel image compression using multiwavelets with SPECK algorithm, Radhakrishnan S., +, *IAJIT January 2008 45-51*.
implementation of a novel efficient multiwavelet based video coding algorithm, Radhakrishnan S., +, *IAJIT January 2008 52-60*.

Mutation

a heterogeneous framework for the global parallelisation of genetic algorithms, Hamdan M., *IAJIT April 2008 192-199*.

NAMP

NAMP: neighbor aware multicast routing protocol for mobile ad hoc networks, Pathan A., +, *IAJIT January 2008 102-107*.

Neural network

simplified neural model for the software development team optimization, Nair M., +, *IAJIT April 2008 148-153*.

Object-oriented databases

enforcing user-defined constraints during the run-time in OODB, Zaqaibeh B., +, *IAJIT October 2008 341-348*.

OCL

integration of the association ends within UML state diagrams, Bouabana-tebibel T., +, *IAJIT January 2008 7-15*.

Off-line Arabic handwriting

neural networks and support vector machines classifiers for writer identification using Arabic script, Gazzah S., +, *IAJIT January 2008 92-101*.

Online information services

towards ontology extraction from data-intensive web sites: an HTML forms-based reverse engineering approach, Benslimane S., +, *IAJIT January 2008 34-44*.

Ontology

using wordnet for text categorization, Elberichi Z., +, *IAJIT January 2008 16-24*.

Open shortest path first

IP over WDM network control: network addressing and restoration, Kibria R., +, *IAJIT October 2008 414-420*.

Optical communication system

comparative performance of hybrid SCM SAC-OCDMA system using complementary and AND subtraction detection techniques, Sahbudin R., +, *IAJIT January 2008 61-65*.

Optical cross-connector

IP over WDM network control: network addressing and restoration, Kibria R., +, *IAJIT October 2008 414-420*.

Optimal clusters number

optimal fuzzy clustering in overlapping clusters, Ammor O., +, *IAJIT October 2008 402-408*.

Optimization

simplified neural model for the software development team optimization, Nair M., +, *IAJIT April 2008 148-153*.

design of linear antenna arrays for side lobe reduction using the tabu search method, Merad L., +, *IAJIT July 2008 219-222*.

Overlap

effect of filter size on fusion function in information retrieval, Gopalan N., +, *IAJIT April 2008 170-175*.

Overlapping clusters

optimal fuzzy clustering in overlapping clusters, Ammor O., +, *IAJIT October 2008 402-408*.

Parallel genetic algorithms

a heterogeneous framework for the global parallelisation of genetic algorithms, Hamdan M., *IAJIT April 2008 192-199*.

Parallel processing

a heterogeneous framework for the global parallelisation of genetic algorithms, Hamdan M., *IAJIT April 2008 192-199*.

Partial band noise jamming

performance analyses of fast frequency hopping spread spectrum and jamming systems, Yahya A., +, *IAJIT April 2008 115-119*.

Particle swarm optimization

a customized particle swarm optimization for classification of multispectral imagery based on feature fusion, Krishnan V., +, *IAJIT October 2008 327-333*.

Performance analysis

a new exam scheduling algorithm using graph coloring, Malkawi M., +, *IAJIT January 2008 80-86*.

Petri nets

integration of the association ends within UML state diagrams, Bouabana-tebibel T., +, *IAJIT January 2008 7-15*.

Piconet

a priority gated round robin polling scheme for bluetooth piconets, Ibrahim A., +, *IAJIT April 2008 176-182*.

Polling

a priority gated round robin polling scheme for bluetooth piconets, Ibrahim A., +, *IAJIT April 2008 176-182*.

Polyalphabetic cipher

applying genetic algorithms for searching key - space of polyalphabetic substitution ciphers, Toemeh R., *IAJIT January 2008 87-91*.

Precision

effect of filter size on fusion function in information retrieval, Gopalan N., +, *IAJIT April 2008 170-175*.

Prediction

implementation of a novel efficient multiwavelet based video coding algorithm, Radhakrishnan S., +, *IAJIT January 2008 52-60*.

Progressive transmission

medical image compression using a novel embedded set partitioning significant and zero block coding, Palanisamy G., *IAJIT April 2008 132-139*.

Quality attribute

trust based prioritization of quality attributes, Bedi P., +, *IAJIT July 2008 223-229*.

Quality of service

a dynamic traffic shaping technique for a scalable QoS in ATM networks, Ogwu F., +, *IAJIT October 2008 349-357*.

Quantization

implementation of a novel efficient multiwavelet based video coding algorithm, Radhakrishnan S., +, *IAJIT January 2008 52-60*.

Queuing process

design and implementation of G/G/1 queuing model algorithm for its applicability in internet gateway server, Singh D., +, *IAJIT October 2008 367-374*.

Radiation pattern

design of linear antenna arrays for side lobe reduction using the tabu search method, Merad L., +, *IAJIT July 2008 219-222*.

Real-time

microcontroller based heart rate monitor, Fezari M., +, *IAJIT October 2008 409-413*.

Recommendation systems

using recommendation systems in course management systems to recommend learning objects, Itmazi J., +, *IAJIT July 2008 234-240*.

Recurrent neural network (RNN)

modelling of long wavelength detection of objects using elman network modified covariance combination, Badri L., *IAJIT July 2008 265-272*.

Reliable multicast

a source tree reliable multicast protocol for ad-hoc networks, Al Ahdal T., +, *IAJIT July 2008 273-280*.

Relieving query

flexible database querying based on ordered lattice theory extension, Sassi M., +, *IAJIT October 2008 426-434*.

Rendering

shadow casting with stencil buffer for real-time rendering, Weng L., +, *IAJIT October 2008 358-366*.

Requirements engineering

modularization of crosscutting concerns in requirements engineering, Amirat A., *IAJIT April 2008 120-125*.

Resource reservation

mobility prediction based resource reservation for handoff in multimedia wireless cellular networks, Al-sanabani M., +, *IAJIT April 2008 162-169*.

Resource reservation protocol

IP over WDM network control: network addressing and restoration, Kibria R., +, *IAJIT October 2008 414-420*.

RETSINA

agent based bioinformatics integration using RETSINA, Shunmuganathan K., +, *IAJIT July 2008 258-264*.

Reuters-21578

using wordnet for text categorization, Elberrichi Z., +, *IAJIT January 2008 16-24*.

Reverse engineering

towards ontology extraction from data-intensive web sites: an HTML forms-based reverse engineering approach, Benslimane S., +, *IAJIT January 2008 34-44*.

Scaling functions

implementation of a novel efficient multiwavelet based video coding algorithm, Radhakrishnan S., +, *IAJIT January 2008 52-60*.

Scatter search

scatter search and graph heuristics for the examination timetabling problem, Hadjidj D., +, *IAJIT October 2008 334-340*.

Search engine

self ranking and evaluation approach for focused crawler based on multi-agent system, Ali H., *IAJIT April 2008 183-191*.

Secondary forwarder list

NAMP: neighbor aware multicast routing protocol for mobile ad hoc networks, Pathan A., +, *IAJIT January 2008 102-107*.

Segmentation and reassembly (SAR)

a priority gated round robin polling scheme for bluetooth piconets, Ibrahim A., +, *IAJIT April 2008 176-182*.

Self-organizing maps algorithm

comparisons between data clustering algorithms, Abu Abbas O., *IAJIT July 2008 320-325*.

Semantic web

towards ontology extraction from data-intensive web sites: an HTML forms-based reverse engineering approach, Benslimane S., +, *IAJIT January 2008 34-44*.

Shadow volume

shadow casting with stencil buffer for real-time rendering, Mohd Weng L., +, *IAJIT October 2008 358-366*.

Shared-risk link group

IP over WDM network control: network addressing and restoration, Kibria R., +, *IAJIT October 2008 414-420*.

Side lobe level

design of linear antenna arrays for side lobe reduction using the tabu search method, Merad L., +, *IAJIT July 2008 219-222*.

Silhouette detection

shadow casting with stencil buffer for real-time rendering, Mohd Weng L., +, *IAJIT October 2008 358-366*.

Soft shadow

shadow casting with stencil buffer for real-time rendering, Mohd Weng L., +, *IAJIT October 2008 358-366*.

Software quality assurance

a knowledge-based advisory system for software quality assurance, Eldrandaly K., *IAJIT July 2008 304-310*.

SPECK

novel image compression using multiwavelets with SPECK algorithm, Radhakrishnan S., +, *IAJIT January 2008 45-51*.

medical image compression using a novel embedded set partitioning significant and zero block coding, Palanisamy G., *IAJIT April 2008 132-139*.

SPIHT

novel image compression using multiwavelets with SPECK algorithm, Radhakrishnan S., +, *IAJIT January 2008 45-51*.

medical image compression using a novel embedded set partitioning significant and zero block coding, Palanisamy G., *IAJIT April 2008 132-139*.

Spike detection

analysis of epileptic events using wavelet packets, Sinno N., +, *IAJIT October 2008 421-425*.

Steganography

multi-segment steganography technique, Al Naowk F., +, *IAJIT July 2008 253-257*.

Strategic planning

strategic planning for e-development in developing countries, Zaied A., *IAJIT April 2008 109-114*.

Subtraction detection technique

comparative performance of hybrid SCM SAC-OCDMA system using complementary and AND subtraction detection techniques, Sahbudin R., +, *IAJIT January 2008 61-65*.

Supply chain

a SCOR reference model of the supply chain management system in an enterprise, Irfan D., +, *IAJIT July 2008 288-295*.

developing approaches of supply chain management systems of enterprises in pakistan, Irfan D., +, *IAJIT July 2008 296-303*.

Supply chain management

a SCOR reference model of the supply chain management system in an enterprise, Irfan D., +, *IAJIT July 2008 288-295*.

developing approaches of supply chain management systems of enterprises in pakistan, Irfan D., +, *IAJIT July 2008 296-303*.

Supply chain networks

developing approaches of supply chain management systems of enterprises in pakistan, Irfan D., +, *IAJIT July 2008 296-303*.

Supply chain operations reference-model

a SCOR reference model of the supply chain management system in an enterprise, Irfan D., +, *IAJIT July 2008 288-295*.

Support vector machines

neural networks and support vector machines classifiers for writer identification using Arabic script, Gazzah S., +, *IAJIT January 2008 92-101*.

System integration

agent based bioinformatics integration using RETSINA, Shunmuganathan K., +, *IAJIT July 2008 258-264*.

Tabu search

design of linear antenna arrays for side lobe reduction using the tabu search method, Merad L., +, *IAJIT July 2008 219-222*.

TCP performance

a novel mechanism to improve performance of TCP protocol over asymmetric networks, Al-Khatib W., +, *IAJIT January 2008 66-74*.

Technology-based teaching

integrating internet into traditional education: a practical study of university students' usage and attitudes, Mohammad J., +, *IAJIT July 2008 241-252*.

Temporal logics

integration of the association ends within UML state diagrams, Bouabana-tebibel T., +, *IAJIT January 2008 7-15*.

Terms classification

vectorial information structuring for documents filtering and diffusion, Nouali O., +, *IAJIT January 2008 1-6*.

Text categorization

using wordnet for text categorization, Elberrichi Z., +, *IAJIT January 2008 16-24*.

Traffic shaper

a dynamic traffic shaping technique for a scalable QOS in ATM networks, Ogwu F., +, *IAJIT October 2008 349-357*.

Training

simplified neural model for the software development team optimization, Nair M., +, *IAJIT April 2008 148-153*.

Trust

trust based prioritization of quality attributes, Bedi P., +, *IAJIT July 2008 223-229*.

TSP

a heterogeneous framework for the global parallelisation of genetic algorithms, Hamdan M., *IAJIT April 2008 192-199*.

Two-phase commit

incompatibility dimensions and integration of atomic commit protocols, Al-Houmaili Y., *IAJIT October 2008 381-392*.

UML

integration of the association ends within UML state diagrams, Bouabana-Tebibel T., +, *IAJIT January 2008 7-15*.

Unsupervised clustering

optimal fuzzy clustering in overlapping clusters, Ammor O., +, *IAJIT October 2008 402-408*.

User attitude

integrating internet into traditional education: a practical study of university students' usage and attitudes, Mohammad J., +, *IAJIT July 2008 241-252*.

Variable bit rate

a dynamic traffic shaping technique for a scalable QOS in ATM networks, Ogwu F., +, *IAJIT October 2008 349-357*.

Vectorial information structuring

vectorial information structuring for documents filtering and diffusion, Nouali O., +, *IAJIT January 2008 1-6*.

Verification

integration of the association ends within UML state diagrams, Bouabana-Tebibel T., +, *IAJIT January 2008 7-15*.

Vertical search engine

self ranking and evaluation approach for focused crawler based on multi-agent system, Ali H., *IAJIT April 2008 183-191*.

Video compression

implementation of a novel efficient multiwavelet based video coding algorithm, Radhakrishnan S., +, *IAJIT January 2008 52-60*.

Vigenere cipher

applying genetic algorithms for searching key - space of polyalphabetic substitution ciphers, Toemeh R., *IAJIT January 2008 87-91*.

Voting protocols

incompatibility dimensions and integration of atomic commit protocols, Al-Houmaili Y., *IAJIT October 2008 381-392*.

Wavelet

novel image compression using multiwavelets with SPECK algorithm, Radhakrishnan S., +, *IAJIT January 2008 45-51*.
analysis of epileptic events using wavelet packets, Sinno N., +, *IAJIT October 2008 421-425*.

WDM

simulation study of a heuristic near-maximum ant-based dynamic

routing, Chin T., *IAJIT July 2008 230-233*.

Weights

simplified neural model for the software development team optimization, Nair M., +, *IAJIT April 2008 148-153*.

Wireless broadcast

modelling concurrent mobile transactions execution in broadcasting environments, Al-Qerem A., +, *IAJIT October 2008 375-380*.

Wireless cellular networks

mobility prediction based resource reservation for handoff in multimedia wireless cellular networks, Al-Sanabani M., +, *IAJIT April 2008 162-169*.

Wireless technologies

from e-manufacturing to m-manufacturing, Bouchoul F., +, *IAJIT April 2008 140-147*.

World wide web

integrating internet into traditional education: a practical study of university students' usage and attitudes, Mohammad J., +, *IAJIT July 2008 241-252*.

Wordnet

using wordnet for text categorization, Elberrichi Z., +, *IAJIT January 2008 16-24*.

Wrapper

agent based bioinformatics integration using RETSINA, Shunmuganathan K., +, *IAJIT July 2008 258-264*.

Writer identification

neural networks and support vector machines classifiers for writer identification using Arabic script, Gazzah S., +, *IAJIT January 2008 92-101*.

Zero crossing algorithm

microcontroller based heart rate monitor, Fezari M., +, *IAJIT October 2008 409-413*.
